NO. OF PAGES: 1 + 2

LIAISON STATEMENT

FROM: ISO/IEC JTC 1/SC 27/WG 3
 TO: The CCUF

ISO/IEC JTC 1/SC 27/WG 3 thanks the CCUF for the request for establishment of liaison circulated as ISO/IEC JTC 1/SC 27 N18859 dated September 30, 2018. WG 3 have appointed Kwangwoo Lee as liaison officer from WG 3 to the CCUF.

WG 3 thanks the CCUF for the updates of the dates and locations of its forthcoming meetings. These are noted and WG 3 requests that the CCUF continue to include information about their future meetings in their future liaison statements.

WG 3 had a busy and productive set of meetings, including consideration of over 660 comments on the first CD of ISO/IEC 15408, 18045, and the associated TR22216. The comment disposition spreadsheets are attached for information.

The first CD document has consolidated the inputs for new topics, and development of the document with technical details continues. The attached CD1 and Disposition of comments should allow the CCUF to provide meaningful contribution to the next draft. The next draft should be available shortly after the 21st December 2018, and comments on this new draft are solicited by 21st February 2019. Likely to be of particular note to the CCUF is the inclusion of a new SFR called FPT_INI in ISO/IEC 15408-2, that might be of interest for CCUF members interested in DSC, TEE or TPM applications.

The WG 3 has also requested the continuation of a study period of relevance to the CCUF and input from CCUF members (either through their respective national bodies or via liaison) would be most welcome. Terms of reference for the study period are attached. It concerns identifying areas of potential overlap between WG 3 standards (specifically ISO/IEC 15408, 18045, and associated TR22216) and relevant standards developed in other SC27 working groups.

The future milestones in respect of the development of ISO/IEC 15408, 18045, and associated TR22216 are:

Stage	Date
CD2	2018-10
DIS	2019-10
PUB	2020-10

WG 3 encourages the CCUF to contribute to the WG 3 work through the liaison channel. CCUF comments and contributions to any current WG 3 work items are welcomed.

We look forward to a rewarding relationship with the CCUF and encourage the CCUF to provide any CCUF work items that the working group may consider for review or comment as attachments to the next liaison statement.

Please note that the latest status of all WG 3 projects, relevant document numbers, and the schedule for updates and comments are all to be found in the resolutions document, SC27 N18820/WG3 N1610 that is attached to this liaison statement. Documents of interest to the CCUF are made available through the liaison channel with SC 27.

Working Group 3 Future meetings

SC 27 plans its next Working Group meetings in:

From	Until	Meeting	Place
2019-04-01	2019-04-05	SC 27 WG 3	Tel Aviv, Israel

Attachments

- WG 3 resolutions (SC27 N18820/WG3 N1610)
- CD 1 ISO/IEC 15408, 18045 and TR22216 (SC27 N18700, N18701, N18752, N18703, N18704, N18753, WG3 N1590) and the Disposition of comments
- Joint Study Period on identifying potential overlap and/or re-use between WG3 security assurance standards and other SC27 standards - (WG 3 N1513)
